**Subject:** Re: Niagara Falls Boulevard Site-T&D Discussion

Eric a discussion on Monday will be worthwhile to discuss the material and what analytical will be needed. Also DOT release preferences can be covered.

Have a great weekend.

Tim

Hi Tim:

It was very hard to break free this week. I was hoping to set aside some time on Monday to discuss T&D.

- I don't believe I heard back from you regarding our existing data and whether or not we need other analytical for your company in regard to the bid?
- When containers arrive on-site and then are demobed, what survey criteria does your follow for contamination/radiation levels; NUREG 1.86 or DOT Empty?
